

## DwyerOmega Statement – TSCA Section 6(h)

### Overview

The US Environmental Protection Agency (EPA) issued a federal bulletin dated January 6, 2021, based on Article 6 (h) of the Hazardous Substances Control Act (TSCA).

The rules restrict five persistent, bio accumulative, and toxic (PBT) substances in “treated articles” currently used in both consumer and industrial products. Final rules prohibit and restrict the manufacture, processing, and commercial distribution of chemicals (PBT substances) with Persistence, Bioaccumulation and Toxicity (PBT), products and articles containing such substances. For details please reference 40 CFR Part 751, Subpart E.

<u>Title</u>	<u>Chemical Name</u>	<u>CAS No.</u>	<u>Concentration Limit</u>
DecaBDE	Decabromodiphenyl ether	1163-19-5	Complete Ban
PIP (3:1)	Tris phosphate (isopropylphenyl)	68937-41-7	Complete Ban
2,4,6-TTBP	2,4,6-Tri-tert-butylphenol	732-26-3	Limit value 0.3% w/w
PCTP	Pentachlorothiophenol	133-49-3	Limit value 1% w/w
HCBD	Hexachloro butadiene	87-68-3	Complete Ban

### Company Statement regarding Article 6(h) of the Hazardous Substances Control Act (TSCA)

Dwyer Instruments, LLC, Omega Engineering, Inc., Automation Components, Inc., Miljoco-Weiss, LLC and Universal Flow Monitors (hereafter collectively referred to as “DwyerOmega”) are global leaders in sensing, monitoring and control technologies. As such, DwyerOmega is committed to minimizing the environmental impact (including those impacted by Article 6 (h) of the Hazardous Substances Control Act (TSCA) associated with the manufacture of our products.

Based upon information obtained from our suppliers, manufacturers and 3<sup>rd</sup>-party data collection partners to the best of our knowledge, DwyerOmega complies with all regulations related to TSCA Section 6(h) rules.

DwyerOmega is committed to providing safe, high-quality products for our customers. As such, we continue to work with our suppliers to ensure that the products we sell meet TSCA section 6(h) standards. Additionally, we continue to monitor the TSCA regulations for any new chemicals to ensure that products we sell continue to be compliant.
