

TOUCH-SAFE HEATER 50 TO 150 W

CS060 Series
Starts at
\$48

- Low Surface Temperature
- Quick Mounting Due to DIN Rail Mountable
- Double Insulated (Plastic)
- Wide Voltage Range
- Small Size

Touch-safe heater for the use in enclosures with electrical/electronic components. The design of the heater supports the natural convection which results in a high air-current of warm air. The surface temperatures on the accessible side surfaces of the housing are kept down as a result of the heater design. Our complete range of thermostats and hygrostats can directly be connected to the heater CS060. This heater is also available in a version with plug-in thermostat requiring no additional wiring (CSF060). Both versions are designed for permanent operation.

CS0600, \$48, shown larger than actual size.
